Guideline for Short Presentation

Please refer to the IWA2009 program in our web site and find your presentation time.

1) Time for Presentation

Total time is 9 minutes, including 2 minutes discussion.

2) Before Presentation

Please prepare your presentation data file with PowerPoint. The room is equipped with computer and LCD projector. To avoid troubles, we would like to copy your PowerPoint data to the conference computer in advance. Please bring your data in USB flash drive or CD-ROM, and submit it to support staff before your presentation during a break or lunch.

Please name your file using your poster presentation number and your name.

e.g. P01YoshidaK.ppt

3) Equipments

The hall is equipped with the following computer. Please save your presentation data file readable with this computer.

Windows PC (OS: XP, Software: Microsoft PowerPoint 2003)

4) questions

Please ask to the Organizing Committee
